UROLOGY

You deserve Texas Tech Physicians of Lubbock

When adult or pediatric urologic problems confront you and your family, please let us be a part of your health care team. Our physicians and nurses are committed to your diagnosis and treatment.

As an affiliate of the Texas Tech University Health Sciences Center School of Medicine, we bring state-of-the-art diagnostics and

treatments to our patients. As teachers, our physicians must remain up-to-date on new treatments and procedures.

Please feel free to contact us if you have any questions! You deserve Texas Tech Physicians of Lubbock.

Adult Urology

We offer a full range of adult and pediatric urological health services, both clinical and surgical. Our renal transplantation division offers kidney transplant preparation, surgery and follow-up care as well as medical services, both clinical and surgical, for those patients with complications from dialysis.

- Prostate enlargement
- Elevated PSA
- Urinary tract infections (UTI)
- Kidney stone disease
- Erectile dysfunction
- Incontinence, male and female
- Kidney, bladder and prostate tumors
- Male infertility
- Blood in urine
- Abnormal erection
- Difficulty urinating
- Vasectomy

Kidney (renal) Transplantation

We provide clinical and surgical services for:

- Dialysis-related complications
- Advanced-stage kidney disease
- Kidney transplant and follow-up
- Immunosuppressive therapy

Pediatric Urology

With special attention to the needs of our younger patients, we offer diagnosis and treatment of:

- Urological birth defects
- Urinary tract infections (UTI)
- Kidney stone disease
- Continence issues, boys and girls
- Bedwetting
- Undescended testicle, disorders of the testicle and scrotum
- Spina bifida

Urological Oncology (cancer treatment)

In collaboration with the UMC Southwest Cancer Research & Treatment Center, we provide care for patients with conditions including:

- Prostate cancer
- Bladder cancer
- Testicular cancer
- Kidney and related cancers
